RADIO AUTOMATION

**FLEXIBLE
SCALABLE
POWERFUL**

AerOn[©] STUDIO

PERFECTLY SCALABLE SOLUTION

INTUITIVE OPERATION

The AerOn Studio radio automation has proven performance, intuitive operation, stability and can be modular expanded at a low cost. An investment in a solid, basically complete solution which can evolve with future needs.

COMPLETELY NEW

YET VERY TRUSTED

Broadcast Partners has been providing radio automation and continuity for over 30 years. The need for radio stations to keep up with the trends has changed to the necessity to be distinguishable. AerOn Studio is optimally designed to assist radio stations in achieving this.

A SOLID AND COMPREHENSIVE BASIS

INEXPENSIVE MODULAR EXPANDABLE

INFORMATION AND DATABASE MANAGEMENT

It is essential to exchange information and come to an agreement in logic between managers and users of radio automation. Within AerOn Studio these functionalities go together seamlessly. From finding a track to creating extensive analyses of the database; everything is possible.

The users interface is not only flexible but in terms of information and layout also adjustable to everyone's individual needs. Managing track information, criteria, Copyright data and external links is very easy. Through the extensive authorization structure personal configuration is possible and data is always safe. The database is also suitable for regional windows.

DESIGN & MUSIC COMPOSITION

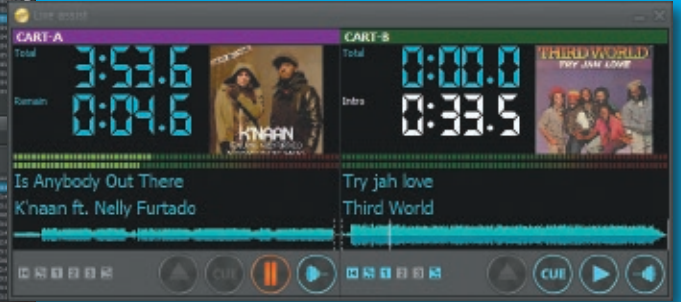

Every radio station wants to distinguish itself through design and music composition. The integrated planners provide freedom in creating and customising a format to the smallest detail. Coincidence no longer exists. If desired AerOn Studio can also work with existing external planning systems.

SCALABLE IN CAPACITY AND SIZE

AerOn Studio provides high reliability and offers simple and intuitive operation. AerOn Studio is a complete radio automation package. The modular design makes the software scalable in capacity, size, and functionality.

AerOn Studio can be set up for any type and size of studio, with the ability to expand easily and quickly, should you wish to.

LIVE RADIO

The live assist players of AerOn Studio offer the DJ / presenter every possible functionality. Because of the great interaction between the Live & Jingle Players, item browsers and search functions, the focus is completely on the broadcast. AerOn Studio is the continuation of your creativity.

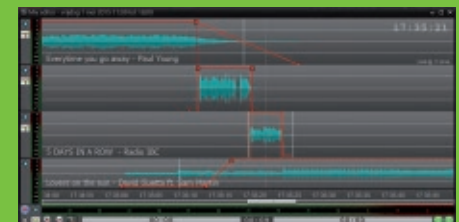

EDITING & MIXING

With AerOns' 3 and 4-track mixeditor audio-transitions can be optimised to the last detail. It is possible to add design, jingles and voicetracks while the user keeps control.

By full integration of the digital mixers it is possible to record a voicetrack as "live presentation", so including fader registration of intro and outro. Coupling with several external editors are provided for editing tracks or news items.

www.aeronstudio.eu

WORKING EVERYWHERE AND ANYTIME

Thanks to the internet it does not matter where a DJ, host, music editor or radio technician is located. Recording voicetracks, controlling music or changing the set-ups, AerOn studio makes it all possible, of course based on the personal and individual access rights with event logging. This is efficient and offers unrestricted possibilities to work where and when it suits you best.

SERVICE AND SUPPORT

AerOn Studio is developed by Broadcast Partners. Since 1983 Broadcast Partners develops professional solutions for radio automation, therefore optimal continuity and expert help is assured.

SWITCH TO AERON STUDIO?

Changing to the flexible solutions of AerOn studio is simple and in most cases the migration will be done fast.
